

## 融合當地語彙的時尚酒店

Alila最新沙灘酒店之作不但請來新加坡團隊URBNarc為其操刀整體建築與室內設計, 更延聘到星城著名園林設計公司Salad Dressing進行景觀規劃。在融合休閒生活氛圍與現 代感的建築裡,我們不只看到綠意滿佈於地景,更垂直蔓延在建築立面、屋頂露台甚而爬 攀至接待櫃台之牆面上,傳遞一派清爽敞朗與專屬自然的曠味。

- 1 Alila Seminyak 度假村的園林景觀委請著名的設計公司Salad Dressing進行規畫。
- 2 印度洋近在咫尺,盡享峇里島的熱帶風情。
- 3 如同當地家屋的設置,Alila Seminyak 亦圍繞著一座寺廟展開。

主持建築師Gaurang Khemka與團隊成員表示,為與此一深具活力的區域特性相符,最後決定將Alila Seminyak營造成為一處「祕境天堂」。然而,總體規劃理念仍取材自峇里島傳統中圍繞庭院或家廟(宗祠)構建的住宅樣貌,並添入在地元素。Alila Seminyak以一座原本便已存在的寺廟為中心開展,度假村內數座建築群藉著可綜覽海天之色的廊道相互連接;接待大廳、餐廳與花園中的擺飾多為當地藝術作品和工藝品,造景也採用了峇里島的原生植物。儘管酒店將喜愛追求潮流的年輕行旅設定為主要客群,並旨在提供頂級度假享受,但亦不忘融入土地最原始、庶民的內涵。

Designed by Gaurang Khemka and his Singapore-based architecture and interior design firm URBNarc, the design team maximizes the resorts' privileged location offering stunning ocean views at every opportunity while maintaining an atmosphere of privacy and individuality.

Aside to a fantastic beachfront experience, Alila Seminyak feels like a lush secret garden. A distinctive blend of contemporary Designed by Gaurang Khemka and his Singapore-based architecture and interior design firm URBNarc, the design team maximizes the resorts' privileged location offering stunning ocean views at every opportunity while maintaining an atmosphere of privacy and individuality.

## 設計酒店之環保先鋒

Alila一字源自梵語,意為「驚喜」,而這也恰為其酒店集團的整體品牌定調。例如同樣位於峇里島的烏魯瓦圖Alila Villas,Alila將傳統發呆亭以鏤空如鳥巢的型態呈現,且置於100米高的懸崖邊;又如嵌在一片河谷與梯田上的烏布Alila,更使峇里島成為無邊際泳池濫觴之地;而阿麗拉普娜瑪號則是移動式酒店的創新嘗試,將設計家具與Alila之度假概念搬到了仿古船上……。

Alila既為度假村設計風格的開創者,同時也是極早宣倡環保概念的酒店品牌。在Alila Seminyak四座獨立建築裡的240間客房和套房,善用推拉門、陽台及遮陽隔屏等設計讓入住賓客得以盡覽戶外絕色景觀,亦迎納了海風與陽光。公共空間則採開放式佈局,引進自然風以取代空調的使用,並利用大片植栽達到環保節能目的;所需電力來自水力發電,也採用了LED照明系統。此外,酒店全面利

用當地出產的石材、再生木材,以及經認證之回收建築材料,且獲得國際環保認證機構EarthCheck的認可,Alila Seminyak無疑為度假村提出一創新與可持續性的設計。

「透過將材料、設備、家具和織物等要素精緻地融合在建築與室內設計上,我們希望可以創造一個永恆的作品,而這個作品隨著時光推移將更顯優雅。」URBNarc如是說。

1 1 2 格柵設計讓海風與陽光得以自然流通。

3 每間客房的設計理念,均以讓賓客可盡覽海景為主。

Aside to a fantastic beachfront experience, Alila Seminyak feels like a lush secret garden. A distinctive blend of contemporary architecture, woven through with vertical greens, wall-hugging plants, green roofs and landscaped terraces, designed to enliven the senses. Green spaces abound, replicated in corridors, lobbies and all public spaces, naturally ventilated by ocean breezes. And when it comes to staying in style, Alila Seminyak's 240 rooms and suites, including one sensational 811 square metre, three-bedroom penthouse, offer a spectacular experience.

Housed in four separate buildings throughout the resort, the rooms and suites express contemporary style, composed of thoughtfully designed and usable spaces. All rooms are designed to maximize views and are furnished with sliding doors, wide balconies and sun shading screens that blur the distinction between inside and outside this enabling guests to fully embrace the beach side experience of this property. Against this canvas of timeless elegance, a touch of the destination can be found in unique details such as custom designed lamps and furniture using a contemporary interpretation of Balinese batik and design motifs.

Beyond its aesthetic appeal, Alila Seminyak's design is also grounded in sustainability and a celebration of its locale. Alila Seminyak will be the first resort in Indonesia to surpass the rigorous EarthCheck Building, Planning and Design standards. This means that Allila Seminyak (particularly in Australasia and Indonesia) is a leading development regarding sustainable development and long-term ecological improvement performance.
